CAUTIONARY STATEMENT

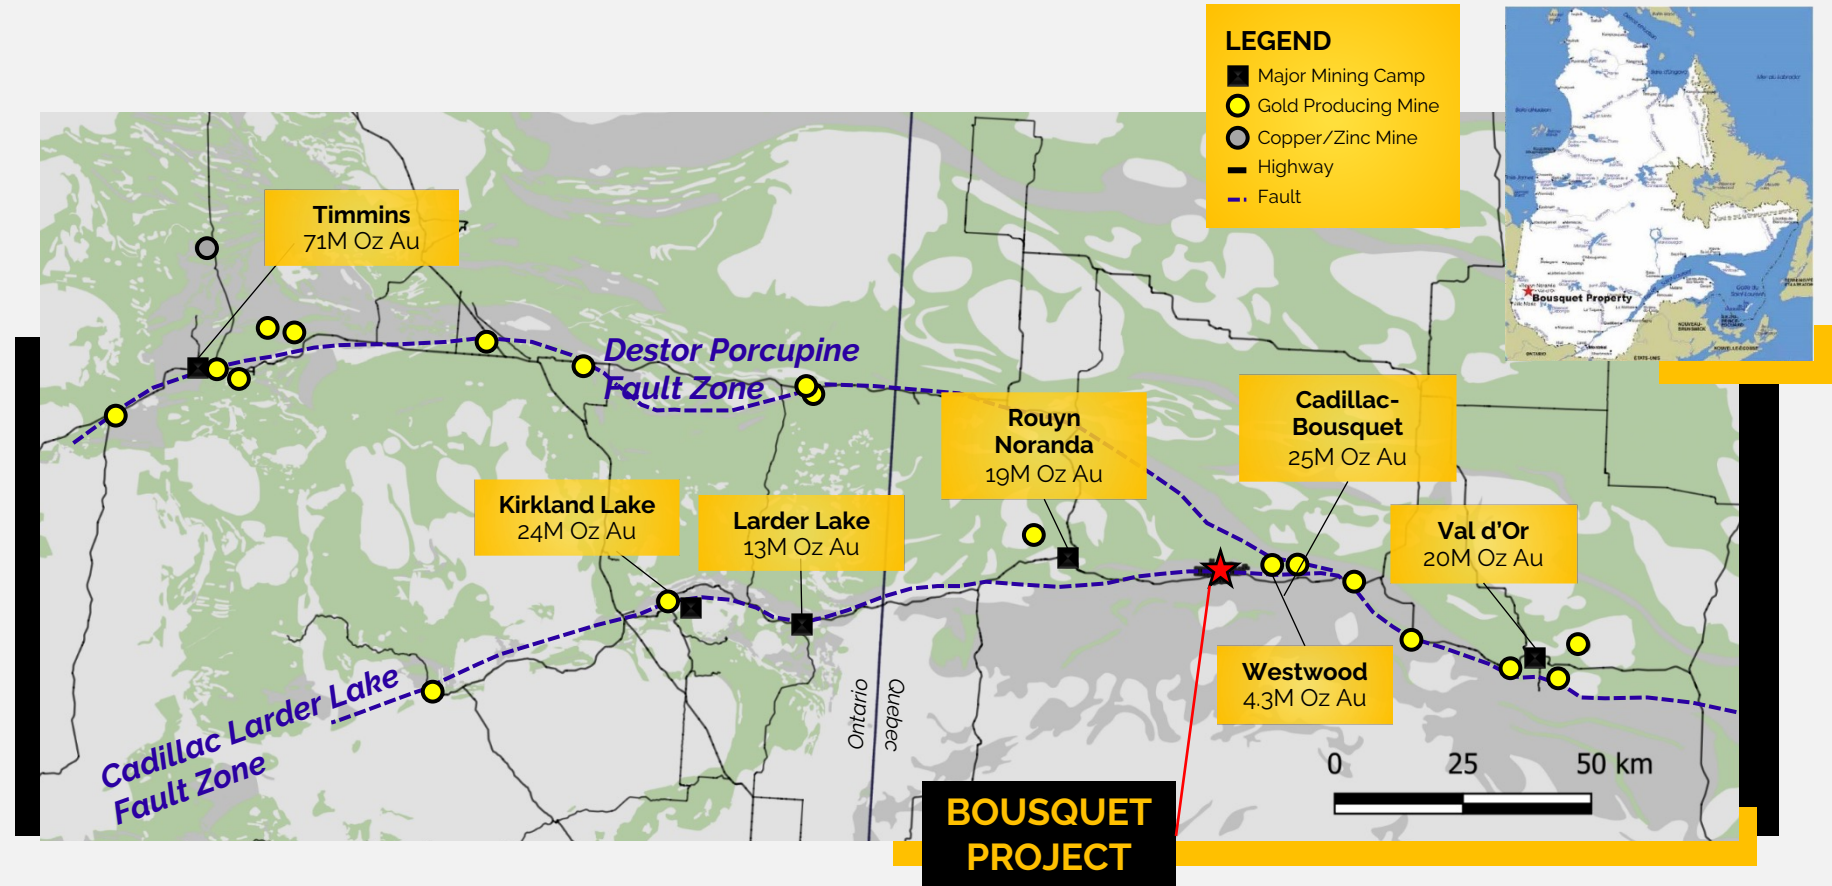

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

Except for historical information certain statements included in this presentation are forward-looking statements within the meaning of Canadian securities laws. Such statements may include words such as “Anticipates”, “schedule”, “projects”, “plans”, “targets”, “programs”, “continues”, “estimates”, “could”, “should”, “would” or “will”. Forward-looking statements made in this presentation involve significant risks and uncertainties. These risks and uncertainties include the inherent risks involved in the exploration and development of mineral properties, the uncertainties involved in interpreting drilling results and other geological data, fluctuating metal prices, the possibility of project cost overruns or unanticipated costs and expenses, uncertainties relating to the availability and costs of financing needed in the future, and other factors. The Corporation disclaims any intention or obligation to update forward-looking statements if circumstances or management’s estimates or opinions should change. The reader is cautioned not to place undue reliance on forward-looking statements.

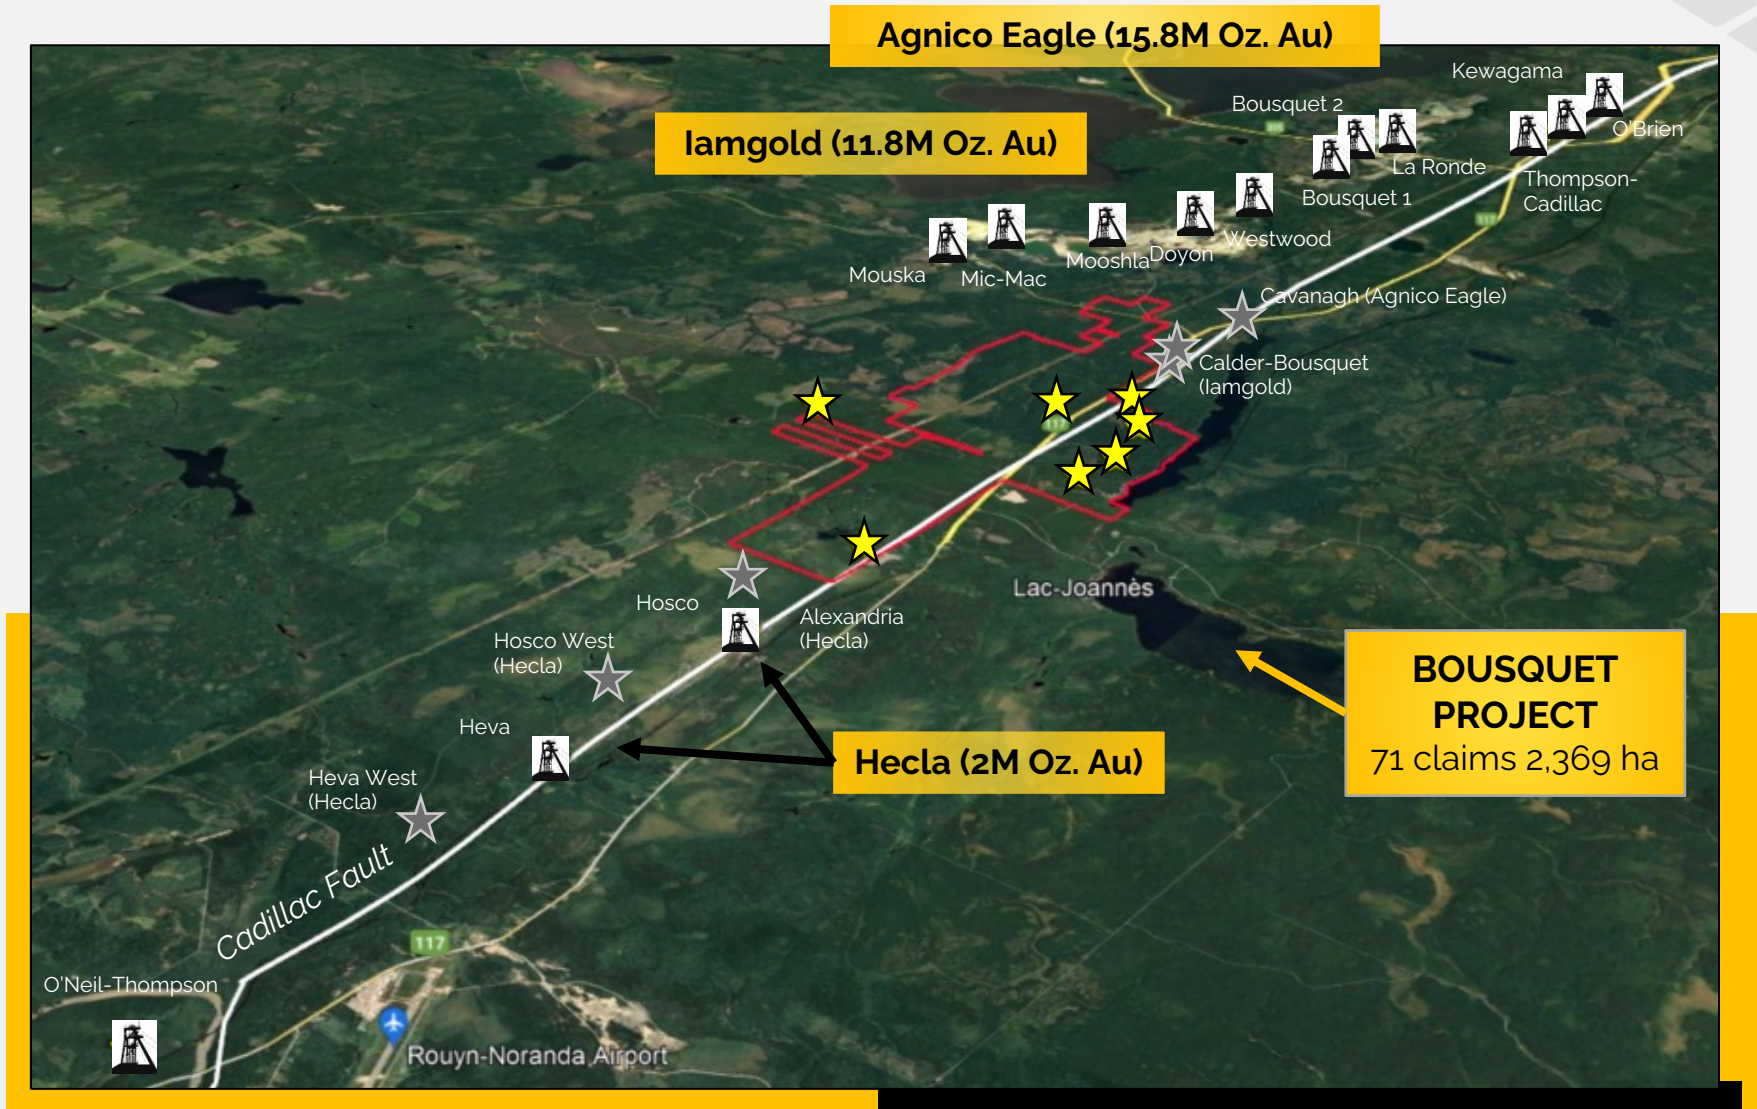

PROLIFIC GOLD MINING CAMP

PROJECT HIGHLIGHTS

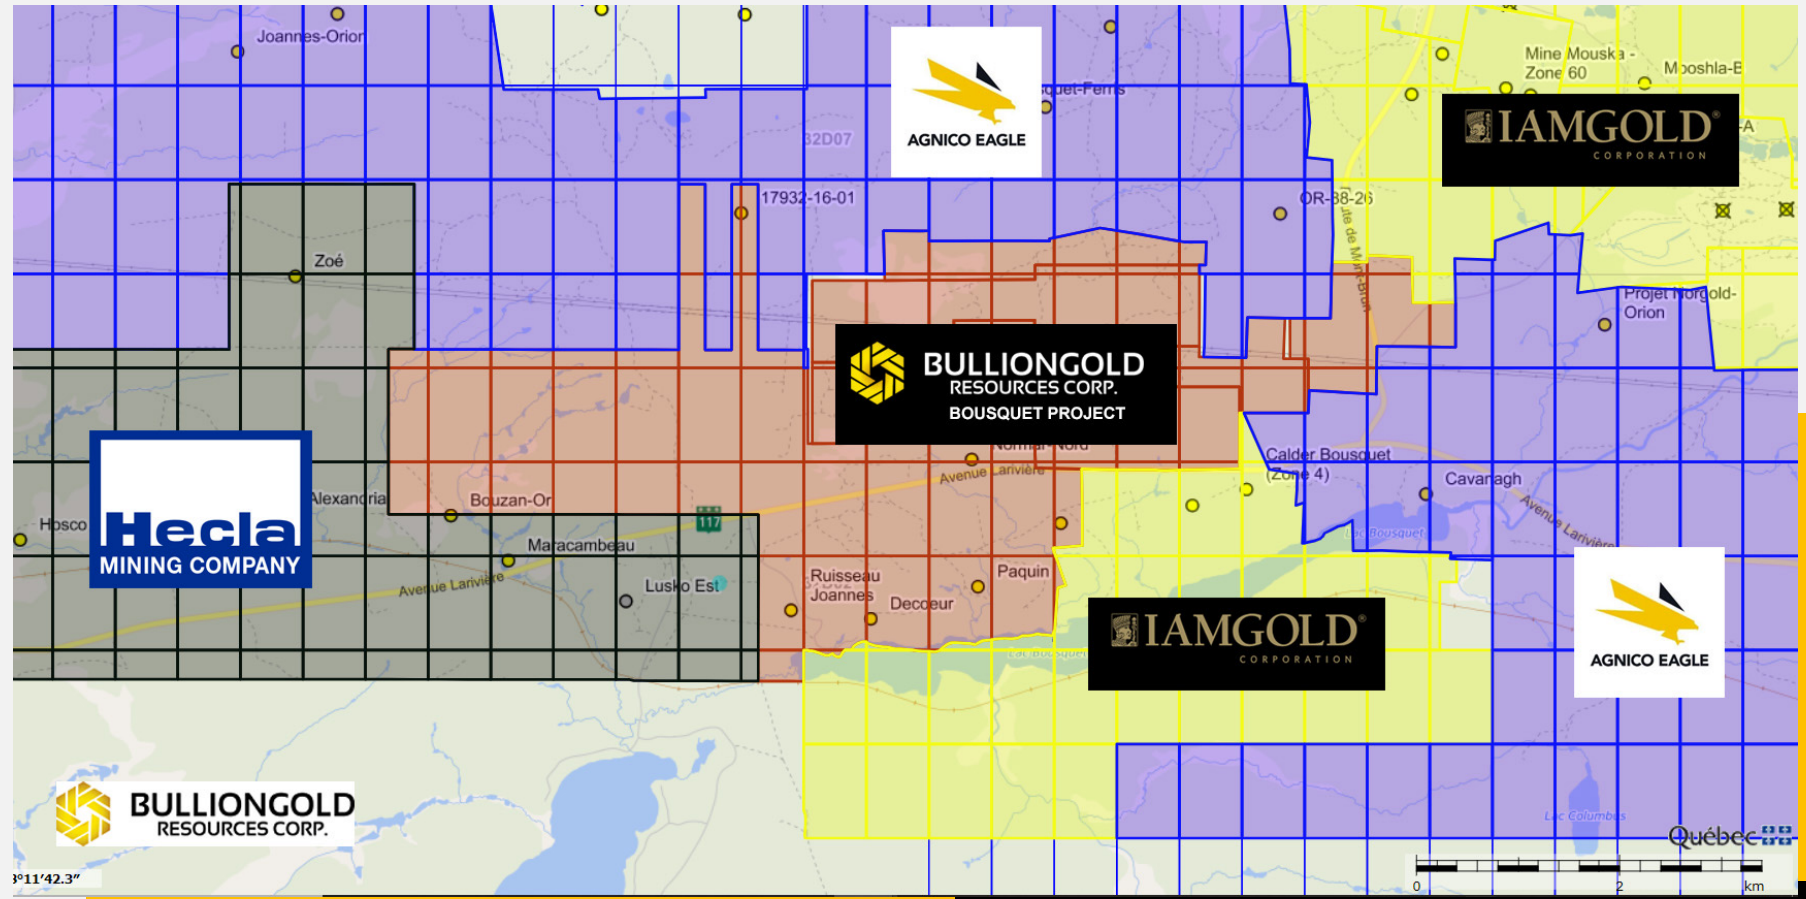

- 71 claims, 2,369 ha located at the heart of the globally recognized Abitibi mining camp (more than 30 mines)
- 100 M oz historical gold production on the Cadillac-Larder Lake Fault
- 10 km along the Cadillac-Larder Lake Fault
- 7 known gold showings
- 4 km gold bearing corridor with multiple showings
- Favorable geology with presence of folds and faults
- Multiple magnetic targets
- Infrastructure and power grid nearby
- Multiple gold mills nearby
- Year long access through provincial road

BOUSQUET PROJECT LOCATION

BOUSQUET PROJECT LOCATION

EXPLORATION HYPOTHESIS

" Following our analysis of the Bousquet project, we observed that part of the gold potential of the property could be possibly found at depth. The Cadillac-Larder Lake fault crossing our property for nearly 7 km was also very little drilled, offering us a great opportunity for a new discovery along this one. These findings will be the basis of our future exploration work " mentioned the CEO of the company Mr. Jonathan Hamel.

Gold mineralization in the area tends to be richer at depth (> 450m)

GOLD SHOWINGS AT DEPTH IN THE AREA

IAMGOLD (WESTWOOD MINE)				RADISSON MINING				
Zone	Depth	Au (g/t)	Length (m)	Zone	Depth	Au (g/t)	Length (m)

Jonathan Hamel

President & Chief Executive Officer

A rising figure in the Canadian gold exploration industry, Mr. Hamel has contributed to the rise of Vanstar Mining Resources (TSX.V: VSR), a gold exploration company with properties located in Northern Québec at different stages of development including the Nelligan Project (Discovery of the Year 2019 Award from the Quebec Mineral Exploration Association). Mr Hamel is a director at Vanstar since 2018, Secretary of the Board since 2020 and acted as Interim President and CEO during management transition in 2020. In addition to his 20 years of management experience that has taken him around the world, Mr. Hamel sits on the Board of Directors at the Montreal Economic Institute, a globally recognized independent public policy think tank focused on proposing reforms based on market principles and entrepreneurship as well as Guest Lecturer at École des dirigeants – HEC Montréal. Mr Hamel served on the Financial Innovation Committee of L'Autorité des Marchés Financiers (Québec) from January 2017 to December 2020.

Gilles Laverdière, P. Geo.

Qualified Person under NI 43-101

Gilles Laverdière is a consulting geologist to exploration mining companies, since 2013. From 2011 to 2013, he was senior consulting geologist for Merrex Gold Inc. where he was in charge in developing a gold project in Mali within a joint-venture with lamgold Inc. From 2006 to 2010, he was a consulting geologist in charge of planning and supervising drilling projects in Northwestern Quebec and writing 43-101 geological reports. From 1998 to 2006, he was CEO of HMZ Metals Inc. where he acquired mining assets in China and listed the Company through an IPO on the TSX. From 1985 to 1997, he has been part of senior management and on the Board of many public mining companies where he evaluated mining prospects, negotiated and structured financing for various mining companies in Canada, the Philippines, Brazil, Nevada. From 1978 to 1984, he was a geologist with a focus on gold exploration in Northwestern Quebec

BOARD OF DIRECTORS
